

*THE FOLLOWING is a theory developed on my own without any background in quantum physics. 5/31/2025. I took 10 mg Ritalin on 3 hours of sleep and, while on a two hour car ride, opened my mind to what are the 5Dimension and 6Dimension.*

*This was not taken from anywhere; it was purely by scratch, through logic. And I was able to do so by allowing my mind to perceive in the 5D.*

Each higher dimension is formed by connecting the starting points of the dimension before it.

Connecting = interacting

1D = A point.

2D = Then a line (2 points connecting).

3D = Then a structure (lines connecting to each other).

4D = Then, these structures interact with each other through time.

Each dimensions links the prior dimensions.

Now, consider that each dimension also is processing higher dimensions in a way that only be perceived in its dimension;

A 2D guy sees a 3D object passing through as a flat plane. Can still see it, but just a part of it.

Now,

5D = every material point at every point in space at every point in time all at once

This boiles down to “timelines” in 4D.

In fact, 5D collapses into 4D because only 1 timeline can be seen.

That said, 5D states sees all “timelines” at once. Meaning,

Every material object at every point in space at every point in time --- all at once.

Now,

Consider again that every dimension collapses to be seen in the lower one.

So,

The sixth dimension is the (interaction of

the MATERIAL at every point in space at every point in time --- all at once

AND

the IMMATERIAL at every point in space at every point in time --- all at once)

**All at once.**

Meaning the 6D collapses into 5D when the immaterial cannot be perceived in 5D --- but its interaction with the material in 6D SHAPES the collapse into 5D.

And the 5D material collapses into 4D material.

What is the immaterial?

Well, it cannot be perceived in 4D. This is like a dot perceiving being part of a cube. Not possible.

However, the immaterial is all that is attributed to GOD and the METAPHYSICAL like.

By understanding the collapse of higher dimensions into the lower ones,

I have reasoned to deduce what exists in 5D and 6D. Without study of Quantum. All because I took Ritalin and got curious and FORCED myself to understand.

This all was discovered through my perception of the 5D, not study. This is an original theory.
